LOOK WHAT GOD OFFERED

On a quiet mid-April afternoon, God gave me an event to help our Agape Christian Academy. Since Mother's Day was approaching, the event was close to my heart. God wanted me to offer an alternative way to honor our Mothers. We would offer an opportunity to help one of our Academy students. The help would come in the form of a sponsorship of the student. There is a part of every

mother that always wants to help a child. That is how we are wired. To be part of child's life in a 3rd world country is exciting, especially when you realize that you are providing them an opportunity to learn to read, write, think critically and perform basic math. Plus they are also included in the daily nutrition program at the end of each school day. For many of our sponsored students, this may be the only meal they

have for the day. Just attending our free school is an amazing gift. Most of our students could not afford the government fees charged for attending public schools in Haiti. Our school does not charge for school or the nutrition program. Our academy is totally funded by sponsors. The cost of books, school supplies, uniforms, teacher salaries and meals, are covered by the student sponsors. What a gift.

Great is the Lord and most worthy of Praise: His greatness no one can fathom.

THANK YOU FOR RESPONDING

God offered and you heard Him. As these past 5 weeks progressed, I witnessed so many miracles. On week one, a donor offered to match our total up to \$10,000. My heart was so thankful.

The next week, sponsors started to respond. In the following three weeks, our totals went from \$2,000 to \$4,000. I was so grateful and amazed. These last two weeks have seen churches and

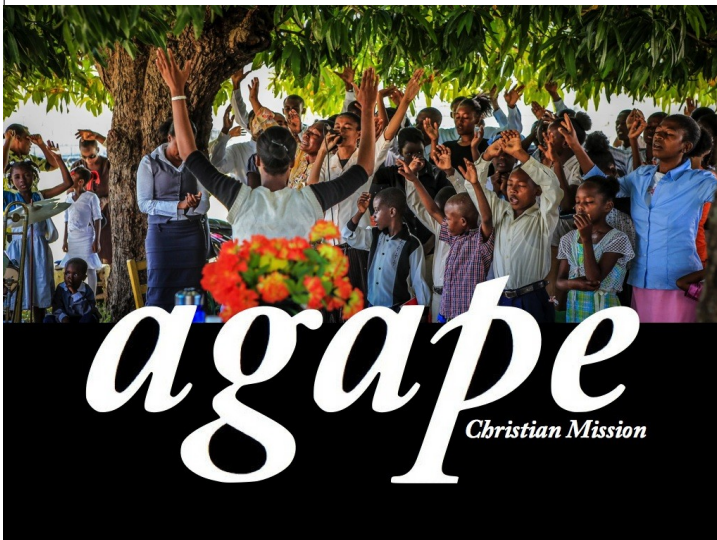

businesses send in sponsorships. As of last Friday, we were at \$8,500. Now I am crying. How great is our God when he moves? Yesterday, we got \$1,455. **Our total: \$9,955. To be Matched !!!!!**
